

K-Love Radio Station 91.1 in the Fresno Area which I live has affected my life greatly. There's positive music, news, and bible verses that life my day at work. K-Love has stations all over the United States and is heard by thousands of people. Do not take this station off the aire. This station is doing the public a great service. I work in Law Enforcement and listening to this station makes even the worst day better. It gives me faith and strength I need to get through the shift. I know several Deputies who listen to this station also who depend on it for uplifting them when their shift goes bad and it seems like the world is ready to explode. I support the radio Station K-Love.
